# ZVV-Bonuspass Flex

The BonusPass Flex is valid for 100 freely selectable days within 12 months and is suitable for employees with a large proportion of home office work or part-time employees who only travel 1-2 days per week.

The individual days must be activated before the first journey of the day. The activated day entitles you to travel on all ZVV "All Zones" public transport from 00h00 to 5h00 of the following day. Unused days that have not been used after 12 months expire*.*

Order

You order the BonusPass using the SwissPass login, via your company's known order link. When selecting the desired subscription, select "5. BonusPass Flex"
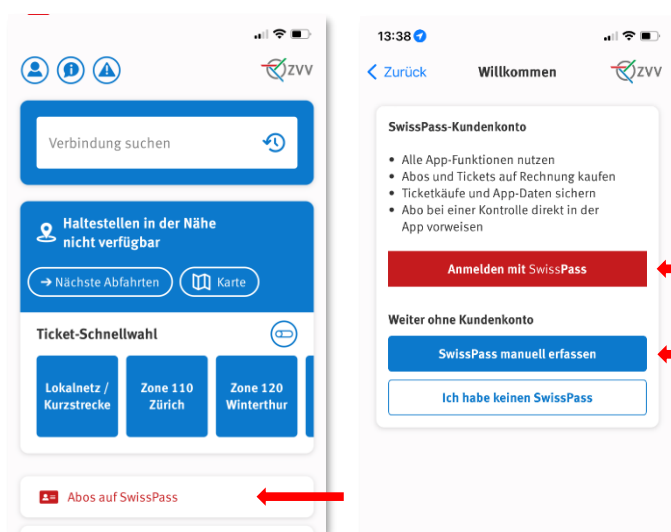

> 1. ZVV-BonusPass 1 Jahr
>
> 2. Z-BonusPass Ostwind-ZVV 1 Jahr
>
> 3. Z-BonusPass A-Welle-ZVV 1 Jahr
>
> 4. Z-BonusPass Schwyz/Zug-ZVV 1 Jahr
>
> **5. ZVV-BonusPass Flex 100 Tag/1 Jahr**
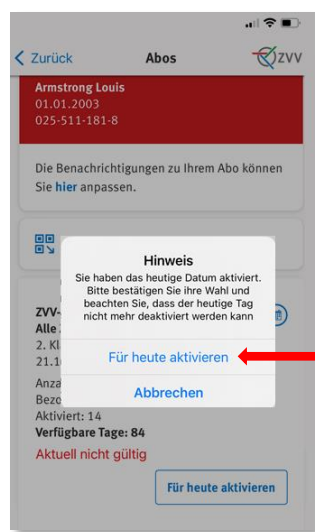

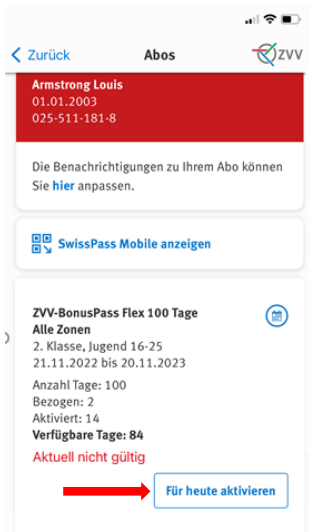

Please note the order deadline of 10 days.

Invoicing

The basis for the delivery price is the zone distance between the place of residence and the place of work. The currently valid connection lists of the ZVV or the Z-Pass company are applicable. For employees who live outside the association, the "All Zones" fare applies in principle. The number of zones cannot be selected.
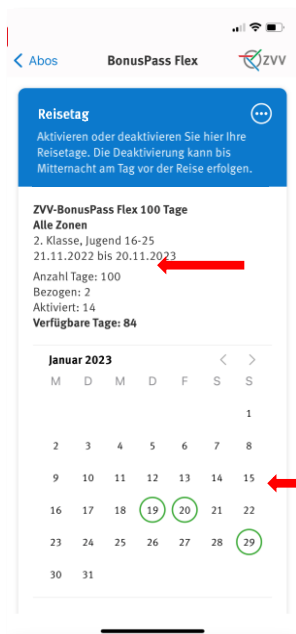

Day activation

1. Please download the latest ZVV app and log in with the SwissPass login.

2. You activate the current day directly in the displayed subscription "BonusPass-Flex".

   The activation for the current day cannot be cancelled.

3. In the same section you will find an overview of the days taken and can plan future travel days in advance.

   An activated travel day can be deactivated in the future until midnight on the day before the trip. The status then changes to "valid" and cannot be cancelled.

4. When checking your tickets on the train, show your Swiss-Pass or activate the Swiss-Pass Mobile on the App.
